

A Breath of Hope Lung Foundation

RESEARCH NEWS

Applications for A Breath of Hope Research Fellowships due tonight!

A Breath of Hope Lung Foundation's 2016 Research Fellowship applications are due tonight by 11:59 p.m. More information about research focus areas and the application process can be found at abreathofhope.org/research.

Questions for the ABOH Research Committee should be directed to research@abreathofhope.org.

Based on growing lung cancer diagnoses among women and our ongoing problem with lack of preventative screening, A Breath of Hope Lung Foundation's research committee chose two focus areas for this year's \$150,000 grants:

1. Early Detection - The Larry Benjamin Research Award; and
2. Women & Lung Cancer.

[DONATE HERE](#) to continue supporting life-saving research and awareness programming!

Volunteers are the lifeline of so much of our work at A Breath of Hope Lung Foundation. From ambassadors who drive patients to appointments, to event volunteers, to office help, these amazing people make it possible for A Breath of Hope to have one of the lowest overheads among lung cancer foundations. If you are interested in volunteering in some capacity, please email us at: maria@abreathofhope.org.

Charities Review Council - we passed our three year nonprofit review with flying colors proving once again that A Breath of Hope Lung Foundation is a trustworthy organization with a strong commitment to accountability and transparency!

Women's Wellness Tea a success!

Thanks to all who were able to attend. As always, thank you to our sponsors, **Virginia Piper Cancer Institute & Dr. Lori Ryan**, and all of our amazing speakers and volunteers! We appreciate each of you!
