

A Breath of Hope Lung Foundation

PARTNERING for SUCCESS

A Breath of Hope Lung Foundation (ABOHLF) is grateful to have a strong network of businesses and individuals that support our work and help us advance our mission to fund research, raise awareness and support patients/families. The financial support provided by A Breath of Hope's partners has contributed to 80% revenue growth in the past few years and in turn, a chance to create real impact in the lung cancer field.

We are thankful for businesses like *Lee Branding, Optum, David Yurman and Talbots (shop 6/16 at the Wayzata store to support ABOHLF!)* who support our fight by donating services and third party events that help us thrive and continue to move **87% of the donated dollar to lung cancer programs.**

We also want to acknowledge the many companies and organizations that step up each year to *sponsor and attend our awareness events.* This financial support reduces our admin costs and funnels more dollars to research and patient support programs. Thank you [sponsors!](#)

Why do we need more awareness and where will it lead? Family after family come to A Breath of Hope Lung Foundation carrying frustration and sorrow about the cancer that has changed their lives forever.

Their journey to beat a 17% survival rate is worsened by the fact that symptoms were often missed or too subtle to pick up. Lung cancer is mostly found in stages 3 and 4. Nothing will change unless awareness improves and preventative lung screenings become part of our general wellness programs.

May 21st marks the first ever **A Breath of Hope Chicago Lung Run/Walk.** Proceeds will support research at ABOHLF and the University of Illinois Cancer Center. Thank you to **NBC Chicago, Bristol-Myers Squibb, Boehringer Ingelheim, Genentech, Lilly Oncology and Intersection** for their support of the **A Breath of Hope Chicago Lung Run/Walk.**

There's still time to [register!](#)

RESEARCH NEWS

Applications for A Breath of Hope Research Fellowship - Women & Lung Cancer deadline extended to 7/1/2016!

Based on growing lung cancer diagnoses among women and our ongoing problem with lack of preventative screening, A Breath of Hope Lung Foundation's research committee chose to focus one of its 2016 fellowships on understanding Women & Lung Cancer.

More information about our \$150,000 Research Fellowship here: [Research.](#)

Questions can be directed to research@abreathofhope.org.
