

# How to Play: Best-shot Scramble

1. Men will use white tees. Women and seniors 65+ will use red tees.
2. All four team members tee off on each hole. Then decide which tee shot (best shot) they will take the second shot from. The second shot will be played by all four team members within one-club length (no closer to the hole, sand stays in sand, rough stays in the rough, fairway stays in the fairway) from this spot.
3. Play is continued in this fashion until ball is holed (putts should be played within 3 inches of marked spot).
4. There is no requirement for using a set number of shots from each player.
5. If you are playing with only 2 or 3 team members you still get four shots. Additional shots should be allocated to all team members.
6. Mark the team score on one scorecard and return it to the pro-shop when your round is complete.
